CADETS UPSET DOPE

Defeat Salina High Team, 26 to 0—
Three Touchdowns, a Safety and a
Field Goal Were Accumulated by
St. John's.

Results to Date

1917—Highs 24, St. John's 0.

1919—Highs 7, St. John's 22.

1920—Highs 7, St. John's 7.

1921—Highs 0, St. John's 26.

One of the biggest upsets in local football circles occurred yesterday when St. John's Military Academy team defeated the local high school by a score of 26 to 0.

Three touchdowns, a safety and a field goal tell the story of the cadet counters.

Doped by the experts before the game to be defeated by several touchdowns, the cadets jumped into the game with a dash and vim that surprised even their most ardent supporters and had tallied a touchdown and a goal twelve minutes after the opening whistle of the game, a forward pass to Pattison, who ran twenty yards to the goal line, accounting for the score.

The high school came back with a vengeance, sweeping the ball to the academy's four yard line where they held for downs and Lippincott kicked out of danger.

The high school again took the ball to the five yard line with twenty-five seconds left to play in the first half. A line plunge by Sherry netted four yards but before another play could be called, time was up, and the half was over.

Again in the third quarter the high school eleven rushed the ball inside the cadet ten yard line but lacked the punch to push it over, the fourth down being a forward pass by Sherry which struck the goal posts and was grounded.

Taking the ball on the twenty yard down the field to the forty yard line where a forward pass, Lippincott to Pattison, put over their second counter, Pattison kicking the goal.

The cadets added a safety, a field goal by Pattison and another touch down by Pattison on straight line plunges in the final period.

The safety came when Sherry let a bad pass get away from him and then fell on it back of his goal line.

Pattison kicked a pretty field goal from the twenty-five yard line and then after seesawing back and forth in the middle of the field the cadets took the ball from the forty yard line across the goal line for their last counter, Pattison again kicking goal.

Condon, the shifty little cadet quarterback, was easily the outstanding player on either side. He seemed to have an unerring tact for picking out the weak spots in the opposing team and called his plays accordingly, besides making large gains with the ball himself.

Pattison was responsible for three touchdowns and the field goal and was a tower of strength on the defense. Lippincott, while not making much gain with the ball while running, punted in great shape and his kicking was quite a help in the cadets' defense.

Collier was the only high school man who seemed to be able to get started, making good gains with the ball, while Sherry, who has been a tower of strength to them this season, was unable to get into his stride during the game.

The high school line which has outcharged every line it has met so far this year was held to a standstill, being unable to open holes for the backs except in one quarter—the third, while on the other hand the cadet line broke through and made holes for their backfield a great number of times.

We are printing this insert from the Salina Evening Journal as an account of our best game of the season.

Capt. Howes (in History): "Who was the umpire in all medaeval disputes?"

Putnam: "Lloyd George."

ATHLETIC BOARD ELECTIONS— ARMY AND NAVY CHOOSE

The elections for the Athletic Board of Control were held recently. After the Board of Control was selected, the new boys were chosen for the two clubs, Army and Navy. The results of these elections are as follows:

Captains of Clubs:

Army—Lippincott. Navy—Pattison.

Athletic Board of Control:

President—Maj. W. L. Ganssle.

Vice President—Lippincott.

Secretary-Treasurer—Capt. Allen.

Representatives to Athletic Board of Control—

From the Sixth Form: Harris, K.

From the Fifth Form: Hill.

From the Fourth Form: Linville.

From the Third and Lower Forms: Marts.

After the above elections had been disposed of, the annual choosing of new members was held, the Club Captains taking turns in selecting members from among the "new boys." The Army had first choice. Fifteen men were added to each Club, as follows:

ARMY CLUB: Grant, Sawyer, A.; Armantrout, Crooks, White, B.; Clark, Sawyer, S.; Lieser, Pooley, Walters, Belot, Wright, Spoelstra, G.; Gay, McMurtrie.

NAVY CLUB: Dalton, McCracken, Aldous, Ginden, Pickering, Sawyer, M.; Manion, Hoskinson, Wildes, Moe, Shirk, Pratt, Spoelstra, C.; Badger, Buel.

The Army Club has the next choice.

"Red" Weinberg, 1915-17, has a baby girl. The news was received through Mr. Wm. Watterson, who refers to the little stranger as "a bonnie wee Scotch lassie."

In speaking of Washington's character, Schlesinger said: "His character was very good when he was young."

Our Aviator Has Returned

The following is the experience of Cadet Horace E. Winger who was in the Air Service:

You have probably heard or read of the boast Secretary Daniels made "that he would stand on the deck of any of his battleships while the Army Air Service dropped demolition bombs aimed at the ship."

At the time of the boast I was stationed at Kelly Field, San Antonio, Texas. We heard rumors that the famous 96th Squadron and the 166th Squadron were to go to Langley Field for duty. Now you probably know that there is always a number of rumors floating around where there are a number of people together; so most of us thought nothing more of it.

Several days later we received our orders, and were told to see that our equipment was in the best of condition.

We entrained at Kelly Field May 16, 1921, at six o'clock in the evening, but did not leave until about eight-thirty. We passed through many towns, but did not stop except to change engines or take on water or coal. We arrived in New Orleans about nine o'clock the second day. As we had to be ferried across the river, we could not lose the time it took for getting on and off.

The next stop was at Chattanooga, Tennessee. We stayed there five hours and enjoyed ourselves very much. We left Chattanooga at ten o'clock that evening, and were getting pretty tired of riding on the train and being fed like a bunch of prisoners,—they always feed prisoners at nine in the morning and at four in the afternoon.

After riding five days and four nights we reached our destination. It was a sorrowful looking bunch that detrained there, and every one wondered why they were sending colored troops there. (We had one bath along the route).

It took us three days to get everything straightened out, and finally we received our orders as to where we were to work.

It was my luck to be assigned to the 88th Squadron, alias the "Wild Bill" Squadron. It appears to me that they had known for sometime that we were coming, for they had permitted the planes to run down and become unsafe to ride in. We had a reputation of being hard workers. We

began with a will and soon had the planes in very good condition.

Shortly afterwards they began putting bomb racks on the planes; first, on the D. H. 4B; then on the S. E-5, and finally, on the Martin Bombers. The D. H-4B is a De Haviland 4 model B, the S. E.-5 is a small scout plane and the Martin Bombers are large planes with two, twelve cylinder motors and a wing spread of about sixty-five feet.

There was much bombing practice, and finally Gen. Mitchell inspected the planes and equipment, and reported that everything was ready to start the contest.

The first "Project" was the German submarine U-117 which was towed out to sea.

The next morning at four sharp two large dirigibles could be seen going out to locate the enemy. At eight o'clock the enemy was sighted and the news was flashed back to headquarters where there was a number of planes loaded with many different kinds of bombs. The SE-5 and DH-4B planes carried one hundred-pound bombs, and the Martin Bombers, two sixteen hundred pound bombs.

As soon as the news that the enemy had been sighted was known, there was a great noise and popping of an aeronautical motor. Ten minutes later five SE-5s and five DH-4B planes took off, and every ten minutes this was repeated until the entire attacking force had gone.

It usually took an hour or so to get to the scene of battle. The army's first bomb was registered a direct hit in the stern. In less than ten minutes she was reported disabled and sinking. This was score one for the Army.

Every one was elated over the victory, but at the same time realized that such a life isn't all pleasure. There were a great many accidents—quite a few fatal ones; consequently we were not a happy bunch, when we learned that one of the men in our squadron had been blown to pieces as a result of two planes colliding in the air. They were about twenty-five miles out to sea, and when they fell we could see them struggling with agony from the burning gasoline. Their bodies were found four days later; all of the ceremonies that go with a military funeral were accorded them. Such is the life of the men that are doing great things for this world.

A few days after the first "Project" we received orders to have the planes

ready so that they could start at a minute's notice. All that day we looked for orders, but none came. But about two in the morning we heard the "Top Kick" blowing his whistle. We thought some one was playing a joke on us, but from the tone in which he said "all out", we knew something was up.

We were then marched to the hangars and were told that all the planes would leave the airdome at three-fifteen. When three-fifteen came there was a buzzing sound like that of a bunch of bees, and then we could distinguish the popping noise of the exhaust.

This attack was to be on the old ship "Iowa," which had quite a bit of wireless equipment.

They used dummy bombs only; the reports of the hits were very satisfactory with Gen. Mitchell, Chief of the Air Service.

We were a tired bunch when we returned with the planes from the scene of battle. After pushing them back into the hangers we were told that we could go to our quarters and retire. Most of us slept until noon; but after dinner we had to return to work, for we had to live up to our reputation.

We were informed that there was to be one more "project," and then we could return to our original station at Kelly Field. This put a renewed spirit into us, and we fell to work with a will.

Several days later the Navy towed the large German boat, the "Ostfriesland" out to sea. It was then announced that the army would have its final chance.

The next morning the Post Commander ordered that each Martin Bomber would carry a 2000lb bomb. We had to change bomb racks and carefully inspect all the planes, so as to avoid any cause for a serious accident. The next day was the one set for the sinking of the last ship, and consequently there was a great number of congressmen and high Military and Naval Officers present. At three a. m. the C-3 and C-4—the large dirigibles at the lighter than air base—were to be seen going out to sea in search of the enemy. At seven twenty-five the news was flashed back and the Martin Bombers "took off." At eight thirty-five Martin Bomber No. 23, piloted by Lt. Devereaux M. Myers, Commanding Officer of the "Devils Head Bombers," and Lt. Frank Bissell, accompanying him as observer, passed over the target to

set the sight. At eight thirty-six this plane again came over and dropped its bomb, which was a direct hit in the bow. This ended the contest, and I think Secretary Daniels is wise enough not to make any more such boasts.

When the news of the sinking reached Langley Field one quit work. The rest of the day was a holiday.

On Monday, January 21, the Cadet Corps was surprised by a visit from Lawrence Bigelow, '21, who is now attending Emporia College, Emporia, Kansas. Bigelow has every reason of being proud of his record at St. John's, where he spent five years. For four years he played guard and center on the football team. During his last year he was captain of the team, which defeated every opponent except Lucas High, and this defeat can be attributed to the fact that the Lucas coach, Mr. Charles Cannon, at one time taught at St. John's and understood pretty well St. John's style of play. During his last year Bigelow was also cadet major, which office is the ranking one in the cadet battalion, and played the cornet in the band under the direction of Mr. P. M. Richardson; he also acted as leader of the band. At Emporia he appears to be maintaining his strong interest in student activities. Last semester he was a member of the football squad, sang on the glee club, and played in the band. The Skirmisher wishes to express its appreciation of what he did for St. John's and will watch with interest his career at college.

Gilbert Smith, Editor-in-chief of the Skirmisher in 1921, is attending Kansas University at Lawrence. He says that he is enjoying his work very much. The Skirmisher misses him much and takes this opportunity of expressing its appreciation of the fine work that was done by him last year.

Those who wish to be placed on the regular mailing list to receive the "Skirmisher" throughout the year will kindly sign and mail the slip hereunder, enclosing \$1.50 as their subscription.

St. John's Cadets Defeat Hays

The St. John's five met the Hays basketballers on the St. John's floor Saturday, Jan. 12, defeating them by a score of 26 to 18.

The playing started off with some flashy floor work on the part of the cadets. The Hays team was somewhat slow in starting, and 10 points were scored by St. John's before they succeeded in getting a point. The playing in the first half was remarkably clean and few fouls were called upon either side. At the end of the first half the score stood 10-16 in favor of the cadets.

In the second half Condon substituted Putnam on the St. John's team. The game progressed with neither team scoring in the first few minutes of play. The monotony was broken by the clever manipulation of the ball by Capt. Gotte, who whipped the ball through the net, scoring for St. John's.

The game ended with the score 26-18 in favor of the black and orange. The cadets were much elated as the victory was the first of the season. It was a good, clean, hard-fought game and characteristic of the brand of sportsmanship we cultivate.

The St. John's lineup was:

Gotte c., Pattison f., Putnam f., Shiney g., Lippincott g.

St. John's Victory

The St. John's Cadet team, by a victory over the Solomon team, started their season off in fine shape. The game was hard fought and close all the way through. Solomon using one sub and St. John's one. But for all Solomon's hard fighting and fine spirit the St. John's team out-played them, and were rewarded by a victory of 28 to 17.

The St. John's line-up was as follows: Gotte, captain and center; Pattison, forward; Condon forward; Putnam forward; Shiney, guard; Lippincott, guard.

1922.

To the Editor of The Skirmisher,
St. John's Military School, Salina, Kansas.

DEAR SIR:

Enclosed please find.....for \$1.50 as my subscription for the "Skirmisher" for the current school year.

The Skirmisher

Published Bi-Weekly by the Cadets of
St. John's Military School,
Salina, Kansas.

Subscription rate.....\$1.50 per year

The Skirmisher Board

The 1922 Skirmisher is being edited by certain members of the senior English class, who have maintained a good average in their work. The editor-in-chief is Dan Schaffner, who is assisted by cadets: Kirkpatrick, Armantrout, Putnam, Snedden, Wood, and Dalton. The faculty advisor is Capt. L. Howes.

Loyalty

The two main factors of success in any undertaking engaging a number of people are efficiency and loyalty. For the successful operation of any business, of any school, of any organized body, these two factors must be present in about equal proportions. In a school like ours, loyalty is the direct outcome of what we call school spirit.

Are St. John's cadets loyal? Do they exhibit the proper school spirit to make them so? These are questions that the cadets might ask themselves; but to those, who follow the alumni and learn through their letters how they regard the School, their appreciation of the training they have received here, and the longing and affection with which they look back upon "the old days" of their sojourn at St. John's, such questions are out of place and unnecessary. St. John's cadets are loyal, and it is no small satisfaction to those who teach and minister to their needs, to feel that they have a student body to work with that is appreciative of their efforts. Where there is appreciation in the student body there will be the proper school spirit and consequent loyalty. If any proof were needed to show that St. John's cadets are loyal to their alma mater, it could be supplied by the fact that so many either return after having left for some time, or sincerely wish they could return. We have right now several boys who have returned after prolonged absence, and recently letters have been received from two or three others who are coming back as soon as arrangements can be made. So it is evident that we have a pretty loyal body of cadets. It is up to the "old boys" to see that

school spirit is maintained, and this can be done largely by assisting the "new boys" to catch this spirit and increase it. Remember, school spirit means loyalty, and loyalty plus efficiency makes the successful school. IT'S UP TO YOU.

Weekly Grades

A departure has been made from the former practice of announcing the average grades monthly; they are now announced weekly. This plan was adopted, because it was felt that a month was too long a time for keeping a cadet in evening study-hall, who had failed to make the required grade by only a few points; that the weekly privilege of studying in quarters would be a greater incentive to the student to bring his grade up to the required standard.

As a rule cadets are more interested in their grades when they can watch them from week to week, and consequently minimize the tendency of getting into a rut. There is no reason why evening study-hall should be so popular with cadets, who by a little additional effort could increase their grades to the point required for room privilege. Get out of the rut; the game is worth the candle; think it over.

News from Merritt Stiles

Merritt Stiles writes an interesting letter to Capt. Shideler, in which he says he often thinks of St. John's and is sorry that he is not coming back. Soon after reaching home he had his tonsils removed, which caused him considerable trouble. He then joined a party of surveyors at Grand Junction. He made a trip as far north as the Utah border, which is up in the mountains "far from the maddening crowd's ignoble strife," and the lure of the big cities. He there spent the summer, enjoying swimming and boating, and was fortunate in having a cook, who added the necessary finishing touches to an ideal camp life. He wishes to be remembered to all the bunch at St. John's.

Major Ganssle later received a nice letter from "M" in which he said he was going to attend the Oklahoma Agricultural and Mechanical College this winter. Judging from his splendid work at St. John's, we predict for him an excellent record in his new school.

Pooley, in English class; "Lincoln's mother died at the age of ten.

Looses Half of Football Squad—Nine Graduate

The game with Minneapolis High was the last in which nine of the squad will ever participate for the Orange and Black. The following are the players who graduate and their records while playing at St. John's:

Donald Pattison, of Mexia, Texas, who was captain of the '21 squad; is a second year man. Lydon Lippincott is a third year man; he hails from Denver. Waldron Sanders of Courtland, Kansas, held down the right end of the line for three years. Ronald McDonald of Denver, Dan Schaffner of Emporia, Kansas, Carl Johnson of Salina, Kansas, and Kenneth Harris of Kansas City will finish after two years under Maj. Wier. Robert Kirkpatrick of Alamosa, Colorado, and Melvin Jackson of Denver have both been on the squad for one season.

But fortunately many old players will return. Hill, captain-elect; Shiny and Condon have been on the team for two years; Grant, Freeman and Aldous are letter men and have had plenty of experience. Other squad men are: Robert McCracken and Horace E. Winger. Judging by their playing of last season, they give promise of fine work in the fall of 1922.

Thirteen Receive Letters

Football trophies were awarded to thirteen first team men at the farewell dinner given the night before the beginning of the Christmas Holidays. Sanders and Lippincott, third year men, each received a large black blanket trimmed in orange. Pattison, Hill, Schaffner, Shiny, McDonald, Harris, Condon, and Johnson, second year men, received gold football fobs. Grant, Freeman and Aldous, first year men, received sweaters.

Those awarded the second team monograms are: McCracken, Dalton, Winger, Linville, Armantrout, Jackson, Benson, White B., Wood, Sawyer A., and Poindexter.

Pattison, captain of the team, presented a diamond set Shrine pin to Coach Wier on behalf of the squad. Coach Wier didn't say anything for about five minutes, but judging from the look on his face he wasn't at all disappointed.

"Sudie" is attending the Kansas State Agricultural School at Manhattan, where he is taking a course in milling. The Skirmisher wishes him success in his work.

Death of Judge F. D. Blundon

F. D. Blundon, well known attorney and prominent Mason, died Sunday morning, January 8th, at Asbury Hospital, following an operation for appendicitis.

The funeral services were held Wednesday afternoon, January 11th, at the First Methodist Church, which were attended by a vast throng of friends and representatives of various organizations. During the time of the funeral all business houses in Salina were closed.

Mr. Blundon lived all his life in Saline County. He graduated from the Kansas Wesleyan University with the class of 1898, studied for the bar and practiced many years in Salina. He was active in church, Masonic, and civic work, and was quite prominent in politics. He was greatly beloved and admired by the vast number in Salina and vicinity that had the privilege of knowing and associating with him.

Mr. Blundon's death is a great loss to the several Masonic bodies, in whose work he was always enthusiastically engaged. Since 1907 he had been recorder of the Isis Shrine. He was quite versatile in handling many parts of the Scottish Rite degree, and it will take brother Masons a long time to present the characters he knew letter perfect.

In the death of Mr. Blundon, St. John's loses an enthusiastic supporter and strong booster. The heart of the student-body and faculty goes out to the family and relatives in their bereavement.

Winger Back

Horace Winger, who left St. John's at the close of the first semester of last year, is back this year. Since leaving he has been in the Air Service. He was first stationed at the Kelley Field in Texas on border patrol. Last May he went to join the 96th Squadron at Langley Field, Virginia. Langley Field is one of the government proving grounds for the Air service. Winger brought back some interesting pictures of the service, and a dummy bomb showing the type used in bombing practice.

Solid Geometry Completed

The Solid Geometry class under the supervision of Major J. L. Wier, has completed its course. There are several sharks who believe that they are now prepared to tackle Einstein's Theory of Relativity.

Our Football Captain-Elect

At the recent football banquet, which was held in Major Weir's quarters, the new football captain was elected. A cadet who is well known to all, and prominent in all phases of school life, was chosen to pilot the 1922 team through the season. This cadet is 1st Lieut. Elmer E. Hill. Lieut. Hill has a record in St. John's which is excellent. Since his entrance in the school in 1919 he has gained a reputation for his constant and tireless energy, his athletic prowess, his dependability, steadiness, and ability to make and retain his friends.

Lieut. Hill has risen from the ranks steadily, and has never been reduced. He has taken part in every school activity. He was made a sergeant upon his return to school in 1920, and in February 1921, was promoted to the rank of sergt. major. Upon his return to school last September he was commissioned as 1st. Lieut. and Adjutant of the cadet corps. He was awarded the commandant's medal at commencement exercises last spring, as the finest in competitive drill and the manual of arms. In addition to this, he is playing basketball this year at the position of guard. He is treasurer and secretary of his fraternity the Phi Delta Sigma and is an accomplished banjo player. This is his second year with the football squad and on the board of control. We all congratulate Elmer upon his election and heartily approve of the action of the squad in choosing him.

Mr. Barker, who was headmaster of St. John's last year, writes that his new work in the Philadelphia school keeps him very busy. He teaches classes in history, arithmetic, algebra, geometry, and English. He misses his associations at St. John's very much, and often feels homesick for St. John's, which he had come to regard as his home. All at St. John's send him heartiest wishes for a happy and successful year.

Captain and Mrs. Allen recently enjoyed a visit from Mrs. Allen's brother, Mr. Geo. Hayden Bromby, Jr., of Shreveport, La. His visit was especially enjoyable to them because they had not seen him for six years, and he had never made the acquaintance of his new niece, Kathleen Virginia, (Sukie). Mr. Bromby formerly resided in Salina and spent many pleasant hours in renewing old acquaintances.

Verne R. Ross to Attend K. U.

The Skirmisher lately has been informed that Verne Ross of the class of '21 is to attend K. U. the second semester. It will be recalled that "Bob" was very prominent in school affairs, both military and scholastic. He was Captain of Co. A in the year of '20 and '21 and was second in rank in the cadet corps. He was very dependable and steady in his work at St. John's and was a general favorite with all. His career has been very remarkable as his high records show. He was awarded the scholastic medal and the cup for the highest yearly average in the school, and his athletic activities were of the highest degree.

He was a member of the Band in 1920 and was soon transferred to Co. A, where he filled the office of Sergeant. He was made first sergeant in a short time. He was commissioned in September 1920, at the beginning of the school year. His office was that of 1st Lt. and Adj. He was the Capt. of the Navy Club in the year of '21 and led his team through victoriously, defeating the Army Club. He was on the football team two years and on the basketball squad one year.

Out of the entire battalion he alone passed the requirements of the sharpshooters course.

Great things are expected of Verne by his friends at St. John's, and he has our best wishes for success in the future.

Rev. W. Clarkson Atwater, '96, is now rector of St. John's Episcopal Church, Wichita, Kansas. After finishing at St. John's he entered the University of Kansas, where he was initiated into the Betta Thetta Pi Fraternity. He later completed his course at the University of Pennsylvania. He was ordained to the diaconate and priesthood by Bishop Millsbaugh of Kansas, under whom he served for several years. For ten years he was rector of a very influential parish in Detroit, Mich., at the same time maintaining a strong interest in many civic activities and enterprises. Since coming to Wichita he has received several urgent calls from large Eastern parishes. He is a strong booster of St. John's and is responsible for the enrollment this year of several cadets from Wichita. The Skirmisher extends him a warm and hearty invitation to return and visit his alma mater.

Basketball Schedule

It will be noticed in this schedule that games, with Salina, McPherson, Junction City, Lucas and several others, have not yet been arranged. These games will be played later in the season, and the exact dates will be published in a subsequent issue. The schedule to date is as follows:

Jan. 13—Solomon at Salina.
Jan. 20—Minneapolis at Minneapolis.
Jan. 21—Hays at Salina.
Jan. 23—Abilene at Abilene.

"Choke" Fleming is now attending Denver University. Several of the boys who live in Denver saw him during the Christmas holidays, and report that he is getting along in fine shape in his studies.

Harry Gray, Art Editor of the Skirmisher in 1921, is attending the University of Minnesota. The Skirmisher is greatly indebted to him for his excellent work as humorist and short story writer in addition to his work as Art Editor.

Our Basketball squad had a scrimmage with the Salina Business College team on the evening of January 11th. The score was an even break until the last two minutes of the game, when the College boys made three straight goals and won by a score of 19 to 14.

Old Cadets Return

Walton Hart of Colorado Springs and Morris Cameron of Pueblo, who attended St. John's last year, have returned. In the meantime each one has been attending high school in his home town. Cameron enrolls as a junior and Hart as a senior.

An Alabama dorky was telling a friend of a church service he had attended.

'De preacher wasn't feelin' so good last Sunday," he said, "an' he made de stove preach de sermon."

"Made de stove preach de sermon?"
"Yessuh; made it red-hot from top to bottom an' den he tells de sinners to take a good look at it an' go to thinkin' "
